

Submit your info

Submit this form to receive FREE, professionally produced, color flyers for distribution at schools or for PeachJar Submissions. You can submit this to your district executive or membership chair. Please allow 2 weeks for flyer production. Due to trademark restrictions, units are not permitted to produce their own flyers. Information below will also be used to create Facebook promotion in your local community at NO COST to your unit (a \$42 value). For assistance, contact your district executive or membership chair.

Important notes

Please be considerate when confirming quantity of flyers.

It is recommended you presort the flyers into stacks of 30 for easy distribution in classrooms if available, homework packets, or packaged meals sent home with remote learners.

Most families will take advantage of easily applying online at BeAScout.org this year. Search for your unit at BeAScout.org to confirm contact and meeting details are accurate. Top unit leaders can update this through their My.Scouting.org account or your district executive can assist you.

Free promotion

For the past two years, the Golden Gate Area Council has been offering paid Facebook promotion of units' Recruitment Events in local communities at no cost to them. Overall, recruitment events that were promoted had MORE new families attend and join! For 2024, we are promoting ALL pack and troop recruitment events through Facebook. After you submit this form, we will create a Facebook event for you. Your families can share the event and invite friends to attend. The BSA will pay to promote your event for up to 10 days. Please provide information 14 days out.

Consent required: Events are promoted in your local communities and it is important those interested families can reach a local unit leader for assistance. For this reason, you must consent to have your contact info shared in the FREE Facebook promotion program. If you do not consent, then local council service center contact info will be used.

- District: _____
- Unit type/number (e.g. Pack 23): _____
- Contact #1 name: _____
- Contact #1 phone: _____
- Contact #1 email: _____
